

SPIRIT LAKE PRESCHOOL

HANDBOOK 2022-2023

709 28TH ST
SPIRIT LAKE, IA 51360

DISTRICT MISSION

All Students will Learn and Become Responsible Citizens

PRESCHOOL STAFF

Kasey Huebner - Elementary principal
Nancy Dau - Preschool Teacher
Kelli Hagedorn - Preschool Teacher
Carly Lehnhoff - Preschool Teacher
Hailey Rozeboom - Preschool Teacher
Shannon Stolen - Early Childhood Special Education Teacher

Please feel free to stop in, call, or email us any time if you have any questions, concerns, or compliments. Please utilize our website and Spirit Lake Elementary Facebook page for up-to-date information on building and our school district.

Sincerely,

Mr. Huebner, Principal, SL Elementary

- Volunteers

VIII. Staff

- General Information
- Health Assessment
- First Aid/CPR certification
- Orientation
- Staffing patterns and schedule
- Staff development activities
- Evaluation and Professional Growth Plan

I. WELCOME TO SPIRIT LAKE PRESCHOOL (QPPS 10.1)

Spirit Lake Preschool was awarded the Statewide Voluntary Preschool Program Grant in 2011 as a result of the Preschool Advisory Committee's dedicated work. The program's goal is to provide a high quality preschool program meeting each child's needs, including children with disabilities and those from a diverse background. The preschool provides a rich learning environment that encourages children's natural curiosity and supports them to take risks that lead to new skill development. It is a setting where children feel safe, respected, and cared for. This is an opportunity for all four year old children to take part in planned, active learning experiences to build their readiness skills. The preschool program has adopted and meets the Iowa Quality Preschool Program Standards, administered by the Iowa Department of Education. The Iowa Early Learning Standards are used to guide expectations for the children and instructional practices.

II. MISSION, PHILOSOPHY, AND GOALS (QPPS 10.1)

Mission:

The mission of Spirit Lake Preschool, a partnership of school staff, parents, and community, is to prepare students to be life-long learners who can become successful, productive future citizens. This will be accomplished by recognizing the value of each individual and promoting academic and personal growth in a challenging and caring environment.

PreK Philosophy of Education:

We believe:

- Student learning is the most important element of our society.
- Students learn best in a safe and caring environment.
- Innovative learning activities and various teaching strategies enhance learning.
- Respect for diversity develops tolerance within the school and our society.
- Effective learning produces life-long skills.
- Leaders never lose sight of best practice.
- Teaching the importance of citizenship benefits the school and the community.
- Productive discipline incorporates control, consistency, and care.
- Memorable and enjoyable activities foster learning.
- School, home and community cooperation facilitates and reinforces learning.

Goals for Children:

- Children will show competence in social/emotional, physical, cognitive, and language development skills.
- Children will be enthusiastic and curious learners.
- Children will be safe and healthy.

Goals for Families:

- Families will feel welcome in the classroom and school.
- Families will work with the school in a meaningful partnership to help their children be better prepared to learn to read and write.
- Families will advocate for their children.

III. ENROLLMENT

Equal Educational Opportunity

It is the policy of the Spirit Lake Preschool not to discriminate in its education programs or educational activities on the basis of sexual orientation, sex, gender identity, race, religion, color, national origin, marital status or disability. Students are educated in programs, which foster knowledge of, and respect and appreciation for, the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society.

The Board and the District will not discriminate in employment opportunities on the basis of age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability.

Ashley Weber is the Equity Contact for the Spirit Lake Community School District

Eligibility

Children must be four years of age prior to September 15th of the current school year. Pre-registration will begin in the spring of the year. Registration materials are available from the elementary office manager.

Hours

Half Day Program: Classes meet for four year old students four days a week. The morning session is from 8:15 a.m. – 11:05 a.m. and the afternoon session is from 12:20 p.m. - 3:10 p.m. Tuesday through Friday. The preschool follows the Spirit Lake School District's school calendar.

Full Program: Classes meet for four year old students four days a week. The full day session is from 8:15 a.m. – 3:10 p.m. Tuesday through Friday. The preschool follows the Spirit Lake School District's school calendar.

General Information (QPPS 5.1 10.4)

Within six weeks after a child begins the program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics.

The maximum class size is 20 children in each session based on square footage of the current location. A teaching staff-child ratio of at least 1:10 will be maintained at all times to encourage adult-child interactions and promote activity among children. The elementary principal will maintain a current list of available substitutes for both the teacher and teacher assistant. Should one of the teaching staff need to temporarily leave the room, the teacher will call the elementary office and the principal will arrange for coverage of the classroom to maintain the staff-child ratio. **(QPPS 10.4)**

Inclusion

The preschool program provides all children, including those with disabilities and unique learning needs an education. Modifications are made in the environment and staffing patterns in order to include children with special needs. Staff are aware of the identified needs of individual children and are trained to follow through on specific intervention plans. It is our belief that inclusion in our program will enrich the experience for teachers, students, other children and their families. The preschool facilities meet the Americans with Disabilities Act accessibility requirements. **(QPPS 9.10)**

IV. A CHILD'S DAY

Who Works In The Preschool (QPPS 10.2)

Program Administrator

The elementary principal is designated as the program administrator supervising the preschool program. The principal meets all qualifications described in the Iowa Quality Preschool Program Standards.

Teachers

A full-time teacher licensed by the Iowa Board of Educational Examiners and holding an early childhood endorsement is assigned to each preschool classroom. **(QPPS 6.3)**

Teacher Assistants

A full time teacher assistant in each classroom carries out activities under the supervision of the teacher. The teacher assistant will have specialized training in early childhood education. **(QPPS 6.4)**

School Nurse

The preschool will have the assistance of a nurse provided by public health. She maintains student health records by updating them quarterly. She is available for parent consultation when necessary. **(QPPS 10.10)**

Support Staff

Prairie Lakes AEA 8 support staff provide resources and assistance to the teacher and classroom upon request to help all children be successful in the preschool setting. Such staff may include: early childhood consultant, speech and language pathologist, social worker, occupational therapist, physical therapist or others.

Curriculum (QPPS 2.1 - 2.3)

Curriculum is a framework for learning opportunities and experiences. It is a process by which learners obtain knowledge and understanding, while developing life skills. It is continually revised and evaluated to make learning fun and exciting.

It is the policy of this district that the curriculum content and instructional materials utilized reflect the cultural and racial diversity present in the United States and the variety of careers, roles, and lifestyles open to women as well as men in our society. One of the objectives of the total curriculum and teaching strategies is to reduce stereotyping and to eliminate bias on the basis of sex, race, ethnic origin, religion, and physical disability. The curriculum should foster respect and appreciation for the cultural diversity found in our country and an awareness of the rights, duties, and responsibilities of each individual as a member of a multicultural nonsexist society. (QPPS 1.7)

The preschool program uses Creative Curriculum Strategies, a research and evidence based comprehensive curriculum. It addresses all areas of early learning: language and literacy, math, science, physical skills, and social skills. It is based on thematic units familiar and meaningful to young children such as Homes and Families, Animals, Five Senses, Transportation, and the Farm. It provides children an opportunity to learn in a variety of ways - through play, problem solving, movement, art, music, drawing and writing, listening, and storytelling. Suggestions for modifications and adaptations are an integral part of the curriculum. (QPPS 2.1, 2.2)

Child Assessment (QPPS 4.1, 4.2)

Guiding principles:

It is the school district's belief that assessment of young children should be purposeful, developmentally appropriate, and take place in the natural setting by familiar adults. The results will be used for planning experiences for the children and to guide instruction. Assessment will never be used to label children or to include or exclude them from a program. A family's culture and a child's experiences outside the school setting are recognized as being an important piece of the child's growth and development. All results will be kept confidential, placed in each child's file, and stored in a secure filing cabinet.

Children are assessed in the following ways:

- teacher will provide families a list of foods meeting the USDA's Child and Adult Care Food Program guidelines.

PREPARING FOR LIFE

- Creative Curriculum is modified to align with the Iowa Early Learning Standards. It records student progress in all developmental areas at the beginning, middle and end of the year.
- Observational data provides an ongoing anecdotal record of each child's progress during daily activities.
- Child portfolios are organized by the teaching staff and include the assessments, observational data, and child work samples collected on an on-going basis.
- Families are asked to contribute information about their child's progress. Young children often show different skills in different settings. Working together, the teaching staff and families can gather a complete picture of a child's growth and development.

The information from the above is used in the following ways:

- To provide information about children's needs, interests, and abilities in order to plan developmentally appropriate experiences for them;
- To provide information to parents about their children's developmental milestones;
- To indicate possible areas that require additional assessment. (QPPS 7.3, 7.5)

Assessment information will be shared formally with families during Parent Teacher Conferences in the Spring. The preschool teacher will communicate weekly regarding children's activities and developmental milestones. Informal conferences are always welcome and can be requested at any time.

If, through observation or information on the Creative Curriculum Report, the teacher feels that there is a possible issue related to a developmental delay or other special need, she/he will communicate this to the family during a conference, sharing documentation of the concern. Suggestions for next steps may include the following, with the knowledge and consent of the parents:

- The teacher requests assistance from the Building Assistance Team as an early intervention process. This team engages in problem identification, plan interventions, provide support, and make outside resources available to those individuals requesting assistance. The team is available and functional for all students and teachers in the building.
- A request made to Prairie Lakes Area Education Agency for support and additional ideas or more formalized testing.

The preschool teacher would assist in arranging for developmental screening and referral for diagnostic assessment when indicated. (QPPS 7.4)

If a child is determined to need special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include sign language and visuals for children with hearing impairments or language delays, and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Program Assessment

Spirit Lake Preschool implements the Iowa Quality Preschool Program Standards. We received Iowa State Verification in the 2011 - 2012 school year. Administrators, families, staff, and other routinely participating adults will be involved annually in a program evaluation that measures progress toward the program's goals and objectives. The annual evaluation process includes gathering evidence on all areas of program functioning, including policies and procedures, program quality, children's progress and learning, family involvement and satisfaction, and community awareness and satisfaction. A report of the annual evaluation findings is shared with families, staff, and appropriate advisory and governance boards. The program uses this information to plan professional development and program quality-improvement activities as well as to improve operations and policies.

IGDI's (Individual Growth and Development Indicators) is another assessment our staff will utilize. This assessment is a tool that provides helpful information about children's growth toward socially valued outcomes that can guide intervention decisions. Our staff will assess each student using this assessment to help make education decisions for the individual student.

Supervision Policy (QPPS 9.2)

Before children arrive at school, the preschool teacher will complete the following daily safety checklist indoor and outdoor:

- All safety plugs and electric outlets covered, heat/AC, water temperature, and toilets, etc. in working order.
- All cleaning supplies/poisons out of children's reach and stored properly.
- Classroom and materials checked for cleanliness/broken parts, etc. including playground.
- Supplies checked - first aid kit, latex gloves, soap, paper towels, etc.
- Daily monitoring of environment - spills, sand, etc. Other serious problems reported to head custodian.
- Upon arrival, each child is observed by the teacher for signs of illness or injury that could affect the child's ability to participate in the daily activities.

No child will be left unsupervised while attending preschool. Staff will supervise primarily by sight. Supervision for short intervals by sound is permissible as long as teachers check every two to three minutes on children who are out-of-sight (e.g. those who can use the toilet independently, who are in the library area, etc.)

Child Guidance and Discipline (QPPS 1.11)

Teaching staff will equitably use P.B.S. (Positive Behavior Support). They will encourage appropriate behavior through the use of consistent clear rules, and involving children in problem solving to foster the child's own ability to become self disciplined. Where the child understands words, discipline will be explained to the child before and at the time of any disciplinary action. Teaching staff will encourage children to respect other people, to be fair, respect property, and learn to be responsible for their actions. Teaching staff will use discipline that is consistent, clear, and understandable to the child. They will help children learn to persist when frustrated, play cooperatively with other children, use language to communicate needs, and learn turn taking.

Challenging Behavior (QPPS 1.2, 1.8, 1.9, 1.10)

The teaching staff in the preschool is highly trained, responsive, respectful, and purposeful. The teachers anticipate and take steps to prevent potential challenging behaviors. They evaluate and change their responses based on individual needs. When children have challenging behaviors teachers promote pro-social behavior by:

- interacting in a respectful manner with all children.
- modeling turn taking and sharing as well as caring behaviors.
- helping children negotiate their interactions with one another and with shared materials.
- engaging children in the care of their classroom and ensuring that each child has an opportunity to contribute to the group.
- encouraging children to listen to one another and helping them to provide comfort when others are sad or distressed.

Teaching staff will guide children to develop self-control and orderly conduct in relationship to peers and adults. Children will be taught social, communication, and emotional regulation skills. If a child displays persistent, serious, and challenging behavior, the teaching staff, parents, and AEA support staff will work as a team to develop and implement an individualized plan that supports the child's inclusion and success.

Aggressive physical behavior toward staff or children is unacceptable. Teaching staff will intervene immediately when a child becomes physically aggressive to protect all of the children and encourage more acceptable behavior.

Permissible Methods of Discipline:

For acts of aggression and fighting (biting, scratching, hitting) staff will set appropriate expectations for children and guide them in solving problems. This positive guidance will be the usual technique for managing children with challenging behaviors rather than punishing them for having problems they have not yet learned to solve. In addition, staff may: (1) Separate the children involved; (2) Immediately comfort the individual who was injured; (3) Care for any injury suffered by the victim involved in the incident.; (4) Notify parents or legal guardians of children involved in the incident; (5) Review the adequacy of the teaching staff supervision, appropriateness of program activities, and administrative corrective action if there is there is a recurrence.

Prohibited Practices

The program does not, and will not, employ any of the following disciplinary procedures:
harsh or abusive tone of voice with the children nor make threats or derogatory remarks.
physical punishment, including spanking, hitting, shaking, or grabbing, any punishment that would humiliate, frighten, subject a child to neglect, or withhold nor threaten to withhold food as a form of discipline.

Water activities (QPPS 5.9, 9.15)

We have a water table in the classroom throughout the year for children to stand and play with their hands in the water. During water play children are involved in active experiences with science and math concepts. Children with sores on their hands are not allowed to participate with others in the water table to ensure that no infectious diseases are spread. Children are not allowed to drink the water during water play activities. When the activity period is complete, the water table is drained and refilled with fresh water before a new group of children comes to participate. Outdoor water play is limited to tubs and buckets or containers as well as the water table.

A photograph of several children sitting in a red and blue ride vehicle, possibly a carousel or a train. They are smiling and looking towards the camera. The text "ENCOURAGE RELATIONSHIPS" is overlaid in large, white, bold, sans-serif capital letters across the top of the image.

ENCOURAGE RELATIONSHIPS

Snacks/Foods and Nutrition (QPPS 5.12- 5.21)

Full day Program Lunch Time: Tuesday-Friday 11:00-11:25

Attitudes about food develop early in life. The food children eat affects their well-being, their physical growth, their ability to learn, and their overall behavior. We have an opportunity to help children learn about foods, to enjoy a variety of foods from their own culture and others, and to help them begin to appreciate that their bodies need to be strong, flexible, and healthy. Eating moderately, eating a variety of foods, and eating in a relaxed atmosphere are healthy habits for young children to form.

For the morning session, a snack is served approximately two hours after breakfast has ended. The afternoon snack is provided approximately two hours after lunch. Two food groups will be represented at each snack time as outlined in USDA guidelines.

Snacks are provided by the school district and are served and stored in accordance with the U.S. Department of Agriculture Child and Adult Care Food Program (CACFP) guidelines. Clean, sanitary drinking water is made available to children throughout the day. Staff discards any foods with expired dates. Foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach. Foods requiring refrigeration will be kept cold until served.

For each child with special health care needs, food allergies, or special nutrition needs, the child's health care provider should provide the program in an individualized care plan prepared in consultation with family members and specialists involved in the child's care. Children with food allergies shall be protected from contact with the problem food. With family consent, the program posts information about the child's allergies in the food preparation area and in areas of the facility the child uses to serve as a visual reminder to all adults who interact with the child during the day. Program staff will keep a daily record documenting the type and quantity of food a child consumes when any child with a disability has special feeding needs and provide parents with that information.

High risk foods, often involved in choking incidents, will not be served. For children younger than four years, these include hot dogs, whole or sliced into rounds; whole grapes; nuts; popcorn; raw peas and hard pretzels; spoonfuls of peanut butter; or chunks of raw carrots or meat larger than can be swallowed whole.

The school district does not use foods or beverages as rewards for academic performance or good behavior, and will not withhold food or beverages as a punishment, nor will teaching staff ever threaten to withhold food as a form of discipline.

Outside Play and Learning (QPPS 5.5, 5.6 - 9.5-9.7)

We have daily opportunities for outdoor play as the weather permits and provided the weather air quality and environmental safety conditions do not pose a threat. This allows children the opportunity to develop their large muscle skills, get exercise, and be active.

In cases when we cannot go outside (due to weather conditions) children are given the opportunity to use indoor equipment for similar activities inside and are supervised at the same level as outdoor equipment. For example, tumbling mats may be offered for upper body activities or rolling across the mat.

In order to make sure that your child can play comfortably outside it is important to dress him according to the weather. When it is cold outside he needs a warm coat, mittens or gloves and a hat (labeled with your child's name). For the warmer days dressing your child lightly is just as important. For those in-between days dressing your child in layers is a practical idea.

There are areas on the playground for children to be in the shade and still be active. We encourage you to apply sunscreen with SPF 15 or higher to your child's exposed skin in mornings before preschool. We also encourage the use of an insect repellent with DEET to protect your child from insect bites before preschool.

Clothing

Your child will be learning through creative, active play that can sometimes be messy. Your child should wear comfortable, washable clothing as well as rubber-soled and closed-toe shoes to school. While we encourage the use of paint smocks or shirts during art projects, we can't guarantee that spills or stains will not occur. Clothing should be free of words, graphics, or pictures that are profane, immoral, illegal, or disruptive in nature. Please clearly label the clothing with your child's name to reduce the possibility of mistakes.

Toilet Learning (QPPS 5.7)

Toilet learning is an important time in a child's development. For children who are unable to use the toilet consistently, the following procedures are in place:

- Staff will follow all diapering guidelines set forth in the Iowa Quality Preschool Programs Standards: Standard 5, Criteria 7:
- Cloth diapers and clothing that are soiled by urine or feces are immediately placed in a plastic bag (without rinsing or avoidable handling) and sent home that day for laundering.
- Staff check children for signs that diapers or pull-ups are wet or contain feces at least every 2 hours. Diapers are changed when wet or soiled.
- Staff change children's diapers or soiled underwear in the designated changing areas and not elsewhere in the facility.
- At all times, caregivers have a hand on the child if being changed on an elevated surface.
- Surfaces used for changing and on which changing materials are placed are not used for other purposes, including temporary placement of other objects, and especially not for any object involved with food or feeding.
- Containers that hold soiled diapers and diapering materials have a lid that opens and closes tightly using a hands-free device (e.g., a step can). Containers are kept closed and are inaccessible to children. The container will be clearly labeled to show its intended use.
- Diapering and Gloving posters will be posted in the changing area showing procedures through the use of visuals and words. These procedures are used by the program administrator to evaluate teaching staff that change diapers.

Potty chairs will not be used due to the risk of spreading infectious diarrhea.

Please clearly label the clothing with your child's name to reduce the possibility of mistakes. Children who have occasional accidents are asked to communicate with the classroom teacher to develop a plan and provide extra clothing in case of accidents.

Weapon Policy

No student shall carry, have in his or her possession, store, keep, leave, place, or put into the possession of another student any real weapon or a look-alike weapon on any school premises, in any school vehicle or any vehicle used by the school or for school purposes, in any school building or other buildings or premises used for school functions, whether or not any person is endangered by such actions. "Look-alike weapon" means any item that resembles or appears to be a weapon. A zero tolerance policy on dangerous weapons (real or toy) is in effect; i.e., gun, squirt guns, water rifles or pistols, slingshots, toy guns, toy grenades and other similar items, knives, etc. Violation may result in a student suspension/expulsion.

Classroom Animals and Pets (QPPS 5.26)

Other than fish, no live animals are to be inside the Spirit Lake Community School District buildings or classrooms at any time.

If you, as a parent or legal guardian, want to bring your family pet to share with your child's classroom you are welcome. However, all animals must remain outside the school buildings during the visit. The preschool teacher ensures that the animal does not create an unsafe or unsanitary condition. The animal would appear to be in good health and have documentation from a veterinarian or an animal shelter to show that the animal is fully immunized (if the animal should be so protected) and suitable for contact with children. The teacher would ensure staff and children practice good hygiene and hand washing when coming into contact with the animal and after coming into contact with the animal. Teaching staff supervise all interactions between children and animals and instruct children on safe behavior when in close proximity to animals.

Any children allergic to the pet will not be exposed to the animal. Reptiles are not allowed because of the risk for salmonella. The classroom teacher is responsible for checking requirements have been met.

Birthdays (QPPS 5.13)

Birthdays are an important and significant event in the life of a child. They afford the opportunity for children to be given special recognition. Accordingly, students who wish to bring treats for the class on their birthday may do so. Food that comes from home for sharing among the children must be either whole fruits or commercially prepared packaged foods in factory-sealed containers. The teacher will provide families a list of foods meeting the USDA's Child and Adult Care Food Program guidelines.

V. COMMUNICATION WITH FAMILIES

The program will promote communication between families and staff by using written notes as well as informal conversations or email. Families are encouraged to send written notes or emails with important information so all the staff who work with the child can share the parent's communication. Teaching staff will write notes for families no less than weekly. Staff will use these notes to inform families about the child's experiences, accomplishments, behavior, and other issues that affect the child's development and well-being. Parents are encouraged to maintain regular, on-going, two-way communication with the teaching staff in a manner that best meets their needs - email, in person, notes, SeeSaw or phone calls.

Open Door Policy

Parents and legal guardians are always welcome to visit the preschool classroom. As a safety feature, all parents and visitors will check in at the elementary school office. Visitors are asked to please use discretion with regard to bringing babies and toddlers to school as young children may disrupt class sessions. Photo identification will be required for any unknown visitor to the classroom.

Arrival and Departure of Children (QPPS 10.11)

All motor vehicle transportation provided by parents, legal guardians or others designated by parents or legal guardians will include the use of age-appropriate, and size-appropriate seat restraints.

When bringing your child to school, we ask that you park your car in the parking lot and turn off the engine before entering the building. Please hold your child's hand as you enter the building to decrease the possibility of an accident. Parents or legal guardians must either accompany children to the classroom at the beginning of the day or leave their child in the care of one of the teaching staff. No child will be permitted to leave the building without an adult.

Other than parents or legal guardians, only persons with prior written authorization (Parent Consent Form) will be allowed to pick up a child from the school. Anyone who is unfamiliar to teaching staff, including authorized individuals, will be asked to present photo identification before a child is released to them.

In the interest of students' safety, parents/guardians/authorized individuals are requested to report directly to the office when picking up their child rather than going to the child's classroom. Likewise, when a student returns to the building following an absence during the school day, the adult should stop in the office and sign the child in. When picking up your child from the school, please come early enough to enjoy watching what your child is doing during that time of the day.

At dismissal, teaching staff will accompany each student to the bus and assist the student onto the bus.

Transportation

Spirit Lake Preschool will provide school bus transportation for preschoolers. Parents or legal guardians may request transportation at enrollment, indicating the pick up and drop off address, the name of the responsible person at that address, and emergency contact information for all parties involved. Parents or legal guardians are asked to keep their information current by reporting changes to the preschool teacher or elementary school office manager.

These are the rules for riding the bus. Failure to follow these rules will result in a bus referral.

1st bus referral – warning

2nd bus referral – suspension from bus for 5 days

3rd bus referral – suspension from bus for the remainder of the year.

If a student exhibits severe misbehavior such as fighting, open defiance or destruction of property, the consequences will be the same as if the student were receiving his third report. Students receive temporary suspension of bus riding privileges at the discretion of the principal.

Parents will be notified of the bus referral via email, phone, or written letter from the principal.

School bus transportation is a privilege and can be taken away any time a student's conduct is considered to jeopardize the safety of the other passengers. The right to safe transportation will not be taken from entire busload of students because a few of them disobey the rules. (Ref. Code No. 502.6) The above penalties are not negotiable. A note written by a parent is required if a bus student is not going to ride his/her bus home or if there are any other changes in the usual bus procedures. The note should be shown to both the teacher and the bus driver. If two students are involved, both students need notes from their parents.

Field Trips

An important learning opportunity can take place in the form of a field trip that is relevant and reinforces what has been taught in the classroom. The Spirit Lake Community School District buses are used for these field trips. Parents will be informed of each field trip through a newsletter and signs posted in the classroom well in advance.

A first aid kit, emergency contact information, and emergency transport authorization information for the children in the group will be taken on all trips. Children will be counted every 15 minutes while on a field trip. Children may only use a public restroom if they are accompanied by a staff member. Children will never be left alone in a vehicle or unsupervised by an adult.

Preschool Advisory Committee (QPPS 7.2)

Spirit Lake Community School has a preschool advisory committee composed of parents, school staff, and other community members interested in the preschool program. This group meets regularly to provide feedback on services that meet children and family needs. They also serve as a sounding board for new ideas and services. Please let the preschool teacher know if you are interested in being part of the Preschool Advisory Committee.

Grievance Policy (QPPS 7.6)

Open and honest communication between families and the preschool program is an essential component of a high quality early childhood program. We want you to be confident that your child is being well cared for and is having a quality experience. If there is ever a time you have a concern regarding your child, we want to encourage you to address your concern to your child's teacher. If additional help is needed, either party may ask for the assistance from the Principal, Mr. Huebner.

If you have a concern regarding some aspect of the program or policy, please contact Mr. Huebner who is the program administrator for the preschool. If you remain dissatisfied, you may contact the superintendent of Spirit Lake Community Schools.

VI. FAMILY INVOLVEMENT (QPPS 7.1, 7.2)

Spirit Lake Community School District encourages families to be very involved in their child's education by observing their children during the day when possible and meeting with staff. Family members are welcome to visit at any time during class sessions.

Teachers and administrators use a variety of formal and informal ways to become acquainted with and learn from families about their family structure and their preferred means of child-rearing practices and communication; and information about their socioeconomic, linguistic, racial, religious, and cultural backgrounds as they wish to share. Families are surveyed in enrollment paperwork and through other questionnaires during the year regarding their family, beliefs, and preferences. Home visits are conducted at the beginning of the school year. Program staff communicate with families on at least a weekly basis regarding children's activities and developmental milestones, shared care-giving issues, and other information that affects the well-being of their children. Family teacher conferences are held in the Spring semester, as well as when either party requests. At least one Family Night is held during the year.

Spirit Lake Preschool values the time spent talking and interacting with families and developing strong, reciprocal relationships. As the teacher learns from the families' expertise regarding their child's interests, approaches to learning, and developmental needs, goals for your child's growth and development can be incorporated into ongoing classroom planning. Families are encouraged to share any concerns, preferences or questions with the preschool teacher or administration at any time.

Although in-person daily contact cannot be replaced, preschool staff also rely on notes home, emails, phone calls, newsletters, and bulletin boards as alternative means to establish and maintain open, two-way communication.

Spirit Lake Preschool invites you to become involved in one or all of the following ways, and welcomes other ideas as well.

- Support your child's daily transition to school by sharing information about your child's interests and abilities. Keeping the teacher informed of changes and events that might affect your child allows the teacher to be more responsive to your child's needs.
- Attend family meetings.
- Return all forms, questionnaires and so on promptly.
- Attend Family/Teacher conferences in the Spring semester.
- Take time to read the family bulletin board.
- Check your child's backpack each day.
- Participate in field trip activities.
- Share some of your talents in your child's class through activities such as: reading or storytelling, cooking, art, music, sewing, crafts, hobbies, your profession, or artifacts from trips you have taken.
- Share any of your families' cultural traditions, celebrations, or customs.
- Help prepare snack and enjoy it with your child.
- Read all the material sent home with your child.
- Come to play.
- Serve on the Preschool Advisory Committee.

It is the policy of the Spirit Lake Preschool not to discriminate on the basis of race, sex, color, gender identity, religion, national origin, creed, age, marital status, or physical disability in its education programs, activities, or employment policies as required by Title VI or VIII of the 1964 Civil Rights Act, Title IX of the 1972 Education Amendments, and the Federal Rehabilitation Act of 1973.

The Board and the District will not discriminate in employment opportunities on the basis of age, race, creed, color, sex, sexual orientation, gender identity, national origin, religion or disability.

Ashley Weber is the equity contact for the Spirit Lake School District.

The school district will, to the extent possible, provide full opportunities for meaningful participation of the families with children with limited English proficiency, families with children with disabilities, including providing information and school reports in an understandable and uniform format and, including alternative formats on request, and, to the extent possible, in a language families understand.

The school district believes that families should be supported in making decisions about services that their children may need. The teaching staff will provide information to families about available community resources and assist as requested in helping the family make connections.

Home Visits

Home visits are made prior to the start of school. This is an opportunity for the preschool teacher to get to know you, your child, and your family and for you to begin to create a partnership between home and school in order to best meet your child's needs. This is a great time for you to share what makes your family unique, how you prefer to communicate with the teacher, and share your knowledge about your child's interests, approaches to learning, and developmental needs. You can help the teacher understand what your goals are for your child and whether you have any concerns you'd like addressed. Parents are encouraged to share these preferences, concerns, and questions at any time with either the classroom teacher or administrator.

Parent Teacher Conferences

The preschool program will have formal family teacher conferences in the Spring. During the conference the teacher will share results of classroom assessments and samples of your child's work. Together you can make a plan to continue to encourage your child's growth and development.

Transitions (QPPS 7.9, 7.10)

Home-school connections are crucial to the transition to kindergarten or any other program, such as special education. The child's family provides the consistency and continuity necessary for a young child to be successful. Making a change from one program to another can sometimes be difficult for a young child whether the transition is within the same building or in another location. Teaching staff will partner with the family to make the transition as smooth as possible by connecting family members with the next program's staff. Preschool staff will provide information about enrollment policies and procedures, program options, and arrange for a classroom visit whenever possible.

VII. HEALTH AND SAFETY

Spirit Lake Preschool is committed to promoting wellness and to safeguard the health and safety of children and adults who participate in our program. In order to provide a safe and secure environment for every child and adult, we follow guidelines required by the Quality Preschool Program Standards, regulatory agencies and pediatric authorities in the field.

Health and Immunization Certificates (QPPS 5.1)

Within six weeks after a child begins the program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics.

When a child is overdue for any routine health services, parents, legal guardians, or both provide evidence of an appointment for those services before the child's entry into the program and as a condition of remaining enrolled in the program, except for immunization for which parents are using religious exemption.

Health and Safety Records

Health and safety information collected from families will be maintained on file for each child in the school nurse's office. Files are kept current by updating as needed, but at least quarterly. The content of the file is confidential, but is immediately available to administrators or teaching staff who have consent from a parent or legal guardian for access to records; the child's parent or legal guardian; and regulatory authorities, upon request. **(QPPS 10.10)**

Child Health and Safety Records will include: **(QPPS 5.1)**

- Current information about any health insurance coverage required for treatment in an emergency;
- Results of health examination, showing up-to-date immunizations and screening tests with an indication of normal or abnormal results and any follow-up required for abnormal results;
- Current emergency contact information for each child, that is kept up to date by a specified method during the year;
- Names of individuals authorized by the family to have access to health information about the child;
- Instructions for any of the child's special health needs such as allergies or chronic illness (e.g., asthma, hearing or vision impairments, feeding needs, neuromuscular conditions, urinary or other ongoing health problems, seizures, diabetes);

- Individual emergency care plans for children with known medical or developmental problems or other conditions that might require special care in an emergency (allergy, asthma, seizures, orthopedic or sensory problems, and other chronic conditions; conditions that require regular medication or technology support); and (QPPS 10.14)

supporting evidence for cases in which a child is under-immunized because of a medical condition (documented by a licensed health professional) or the family's beliefs. Staff implement a plan to exclude the child promptly if a vaccine-preventable disease to which children are susceptible occurs in the program.

General Health and Safety Guidelines

- All staff must be alert to the health of each child, known allergies, or special medical conditions.
- Under the supervision of the preschool teacher, all staff must be alert to the whereabouts of all children. Systems are in place for accounting for children at regular intervals, especially during periods of transition.
- All staff are to follow proper procedures for hand washing, using disinfectant, and following universal precautions to prevent infections.
- All staff are familiar with evacuation routes and procedures.
- All teaching staff complete "Occupational Exposure to Bloodborne Pathogens" annually.
- At least one staff member who has a certificate of satisfactory completion of pediatric first-aid training, including managing a blocked airway and providing rescue breathing for infants and children, is always present with each group of children. When a child in the group has a special health condition that might require CPR, one staff person who has successfully completed training in CPR is present in the program at all times. (QPPS 5.4)

Illness Policy and Exclusion of Sick Children (QPPS 5.3)

- For the health and safety of all the children, it is mandatory that sick children not be brought to school. If your child has any of the following symptoms during the night, he or she will not be admitted the following morning for the safety of the other children.
- fever greater than 100 degrees F
- vomiting
- diarrhea
- pink eyes with drainage
- cough with congestion and excessive nasal discharge

The center's established policy for an ill child's return:

- Fever free for 24 hours
- Chicken pox: one week after onset (or when lesions are crusted)
- Strep: 24 hours after initial medication
- Vomiting/Diarrhea: 24 hours after last episode
- Conjunctivitis: 24 hours after initial medication or when without drainage

Upon arrival at school, each child is observed by teaching staff for signs of illness or injury that could affect the child's ability to participate comfortably in the daily activities. Children will be excluded when a child is not able to participate comfortably; if the illness requires more care than staff are able to provide without compromising the needs of the other children in the group; or if keeping the child at school poses an increased risk to the child or to other children or adults with whom the child will come in contact.

When a child develops signs of an illness during their day at preschool, parents, legal guardians, or other person authorized by the parent will be notified immediately to pick up the child. For this reason, please be sure that we have current, accurate phone numbers for you, your authorized emergency contact person and your child's pediatrician. In the meantime, we will provide the child a place to rest until the parent, legal guardian or designated person arrives under the supervision of someone familiar with the child. If the child is suspected of having a contagious disease, then until she or he can be picked up, the child is located where new individuals will not be exposed.

Dental Health Emergencies

The program has written, up-to-date, comprehensive procedures to prepare for and respond to medical and dental emergencies for children and adult staff. The procedures include:

Identification of a hospital or other source of medical care as the primary site for emergency care (program staff have informed the facility of their intent to use their services in an emergency).

Arrangements for emergency transport and escort from the program of individuals who require immediate medical attention.

Reporting Communicable Diseases (QPPS 5.4)

Staff and teachers provide information to families verbally and in writing about any unusual level or type of communicable disease to which their child was exposed, signs and symptoms of the disease, mode of transmission, period of communicability, and control measures that are being implemented at the program and that the families should implement at home. The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually, made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when outbreaks of communicable disease occur.

Medication Policies and Procedures (QPPS 5.10)

Policy: The school will administer medication to children with written approval of the parent and an order from a health provider for a specific child. Because administration of medication in the school is a safety hazard, medication administration will be limited to situations where an agreement to give medicine outside preschool hours cannot be made. Whenever possible, the first dose of medication should be given at home to see if the child has any type of reaction.

Procedure: The school nurse administers medication during school hours only if the parent or legal guardian has provided written consent and the medication is available in an original labeled prescription or manufacturer's container that is child-resistant. This person has specific training and a written performance evaluation, updated annually by a health professional on the practice of the five right practices of medication administration: (1) verifying that the right child receives the (2) right medication (3) in the right dose (4) at the right time (5) by the right method with documentation of each right each time the medication is given.

Medication errors will be controlled by checking and recording these five right practices each time medication is given. Should a medication error occur, the Regional Poison Control Center and the child's parents will be contacted immediately. The incident will be documented in the child's record at the school.

For prescription medications, parents or legal guardians will provide the school with the medication in the original, child-resistant container that is labeled by a pharmacist with the child's name, the name and strength of the medication; the date the prescription was filled; the name of the health care provider who wrote the prescription; the medication's expiration date; and administration, storage, and disposal instructions.

For over-the-counter medications, parents or legal guardians will provide the medication in a child-resistant container. The medication will be labeled with the child's first and last names; specific, legible instructions for administration and storage supplied by the manufacturer; and the name of the health care provider who recommended the medication for the child.

Instructions for the dose, time, method to be used, and duration of administration will be provided to the teaching staff in writing (by a signed note or a prescription label) or dictated over the telephone by a physician or other person legally authorized to prescribe medication. This requirement applies both to prescription and over-the-counter medications.

Medications will be kept at the temperature recommended for that type of medication, in a sturdy, child-resistant container that is locked and prevents spillage. All medications are kept in a locked container in the nurse's office.

Medication will not be used beyond the date of expiration on the container or beyond any expiration of the instructions provided by the physician or other person legally permitted to prescribe medication. Instructions which state that the medication may be used whenever needed will be renewed by the physician at least annually.

Cleaning and Sanitization (QPPS 9.11)

The facility will be maintained in a clean and sanitary condition. When a spill occurs, the area will be made inaccessible to children and the area will be cleaned immediately.

Toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion will be removed immediately and disinfected after they are cleaned with soap and water. This also applies to other surfaces in the classroom. Toys and surfaces will be disinfected using a non-toxic solution of one tablespoon household bleach to one quart of tap water made fresh daily. To disinfect, the surfaces will be sprayed until glossy. The bleach solution will be left on for at least 2 minutes before it is wiped off with a clean paper towel, or it may be allowed to air dry. Machine washable cloth toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion must be laundered before another child's use. Toys that cannot be cleaned and sanitized will not be used. (QPPS 5.24)

Staff will be trained in cleaning techniques, proper use of protective barriers such as gloves, proper handling and disposal of contaminated materials, and information required by the US Occupational Safety and Health Administration about the use of any chemical agents.

Routine cleaning will be supervised by the preschool teacher and will follow the Cleaning and Sanitation Frequency Table in Section III, page 47 of the QPPS manual. A checklist will be completed as indicated in the table.

Facility cleaning requiring potentially hazardous chemicals will be scheduled when children are not present to minimize exposure of the children. All cleaning products will be used as directed by the manufacturer's label. Nontoxic substances will be used whenever possible.

Hand Washing Practices (QPPS 5.8)

Frequent hand washing is key to prevent the spread of infectious diseases. Teachers teach children how to wash their hands effectively. Posters of children using proper hand washing procedures are placed by each sink. The program follows these practices regarding hand washing:

- Staff members and those children who are developmentally able to learn personal hygiene are taught hand-washing procedures and are periodically monitored, using liquid soap and running water; rubbing hands vigorously for at least 10 seconds, including back of hands, wrists, between fingers, under and around jewelry, and under fingernails; rinsing well, drying hands with a paper towel and avoiding touching the faucet with just-washed hands (e.g. by using paper towel to turn off water).
- Hand washing is required by all staff, volunteers, and children except when handling blood or body fluids that might contain blood (gloves are required) wearing gloves is a supplement, but not a substitute for hand washing in any situation listed above.
- Staff must wear gloves when contamination with blood occurs.
- Staff does not use hand-washing sinks for removing fecal material.
- Staff assist children with hand washing as needed to successfully complete the task.

Children and adults wash their hands:

- upon arrival for the day;
- after diapering or using the toilet (use of wet wipes is acceptable for infants);
- after handling body fluids (e.g., blowing or wiping a nose, coughing on a hand, or any touching of mucus, blood or vomit);
- before meals and snacks, preparing or serving food, or handling any raw food that requires cooking (e.g., meat, eggs, poultry);
- after playing in water that that is shared by two or more people;
- after handling any materials such as sand, dirt, or surfaces that might be contaminated.

Adults also wash their hands

- before and after feeding a child;
- after assisting a child with toileting.

Proper hand-washing procedures are followed by adults and children and include situations where sinks used for both food preparation and other purposes. Staff clean and sanitize the sinks before using them to prepare food.

First Aid Kit (QPPS 9.13)

A first aid kit is located in the preschool classroom next to the door. It is inaccessible to children, but readily available for adult use. It is fully equipped according to guidance from Healthy Child Care Iowa. Following each use of the first aid kit, the contents will be inspected and missing or used items replaced immediately. The first aid kit will be inspected monthly. The first aid kit is taken to the outdoor play areas as well as on field trips and outings away from the site.

Fire Safety (QPPS 9.140)

A fire extinguisher is installed in the preschool classroom with a tag indicating its annual service date. The fire alarm system is serviced annually. Smoke detectors, fire alarms, and carbon monoxide detectors are tested monthly. A written log of testing dates and battery changes is maintained and available upon request. Fire drills are conducted monthly and recorded on a log.

Medical Emergencies and Notification of Accidents or Incidents (QPPS 10.13)

The Spirit Lake School District has in place "Safety Procedures" that describe the following situations and procedures to follow:

- Emergency phone numbers
- Fire procedures
- Utility Failures (electrical power failure, water line break, gas line break)
- Severe weather
- Bomb threats
- Physical Threats/Armed Intruder
- Evacuations
- Crisis Intervention Plan, Crisis Intervention Steps, and Media Procedures
- Accidental Injury or Illness procedures for life threatening and non-life threatening situations
- School crisis team members and a checklist to use
- List of CPR/First Aid experienced persons in each building

This information will be posted by the telephone and included in the first aid kit. Procedures will be reviewed by each staff member at the beginning of each school year and when changes are made to it.

In the event that your child receives a minor, non-life threatening injury during their time at preschool, our teacher will assess the situation and apply first aid as needed. Minor cuts and scrapes will be treated with soap and water and bumps will be treated by applying ice to the injured area. Any incident or injuries will be documented on an "Injury and Illness" note will be given to the parent within 24 hours of the incident.

All staff will have immediate access to a device that allows them to summon help in an emergency. The telephone numbers of the Fire Department, Police Department, Hospital, and Poison Control will be posted by each phone with an outside line. Emergency contact information for each child and staff member will be kept readily available. The list of emergency telephone numbers, and copies of emergency contact information and authorization for emergency transport to LRH will be taken along anytime children leave the facility in the care of facility staff.

Emergency phone numbers will be updated at least quarterly. Emergency phone numbers will be verified by calling the numbers to make sure a responsive, designated person is available.

Inclement Weather

For announcements concerning school cancellations, delays, or early dismissals due to inclement weather listen to:

KICD 107.7 FM KICD 1240 AM

KILR 95.5 FM KILR 1070AM

KUOO 103.9 FM KTIV Channel 4

The decision to start school late, cancel or dismiss early due to weather conditions is sometimes a difficult one to make. Please have an alternative plan for your child in case of early dismissals. Also, please inform the school of these alternative plans so we can make sure your child gets to the correct location and is not left home alone. In the event of a 2 hour late start, morning preschool classes will be cancelled.

Protection From Hazards and Environmental Health (QPPS 9.16, 9.17)

Program staff protect children and adults from hazards, including electrical shock, burns, or scalding, slipping, tripping, or falling. Floor coverings are secured to keep staff and children from tripping.

The program maintains facilities so they are free from harmful animals, insect pests, and poisonous plants. Pesticides and herbicides, if used, are applied according to the manufacturer's instructions when children are not at the facility and in a manner that prevents skin contact, inhalation, and other exposure to children. The program uses the techniques known as Integrated Pest Management (IPM) so that the least hazardous means are used to control pests and unwanted vegetation.

Smoke Free Facility (QPPS 9.19)

In compliance with the Iowa Smoke-Free Air Act of 2008, Spirit Lake Community School buildings and grounds are smoke free. A “No Smoking” sign meeting the law’s requirements is posted at the entrance to the preschool classroom building to inform people that they are entering a non-smoking place. No smoking is allowed on the school grounds or within sight of any children.

Child Protection Policies (QPPS 10.8, 10.16, 10.19)

The health and wellbeing of every child in our care is of the utmost importance and the protection of children is our responsibility. An applicant or volunteer for temporary or permanent employment with the preschool program involves direct interaction with or the opportunity to interact and associate with children must execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition, no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

The program has a written school board policy for reporting child abuse and neglect as well as procedures in place that comply with applicable federal, state, and local laws. The policy includes requirements for staff to report all suspected incidents of child abuse, neglect, or both by families, staff, volunteers, or others to the appropriate local agencies. Staff who report suspicions of child abuse or neglect where they work are immune from discharge, retaliation, or other disciplinary action for that reason alone unless it is proven that the report is malicious. All teaching staff complete “Mandatory Reporter: Child and Dependent Adult Abuse” at least every five years and within six months of employment.

The school district does not tolerate employees physically, or sexually abusing or harassing students. Students who are physically or sexually abused or harassed by an employee should notify their parents, legal guardians, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated Terry Bruinsma at 712-338-1370. The alternate investigator is Angela Olsen and may be reached at 712-336-3707.

Substance Abuse

Persons under the influence of drugs or alcohol will not be permitted on the premises of the Spirit Lake Community School. At no time will children be released to a person under the influence of alcohol or drugs.

Volunteers (QPPS 10.15, 10.17)

Parents, friends, grandparents, and other adults are encouraged to take an active part in the educational process of the children. Please contact the teacher, the elementary principal, or our office manager if you would like to be a school volunteer. For safety's sake, if a volunteer will be working with children, he/she will be expected to execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

VIII. STAFF (QPPS 10.15 – 10.20)

General Information

The Spirit Lake School District has written personnel policies that define the roles and responsibilities, qualifications, and specialized training required of staff and volunteer positions. The policies outline nondiscriminatory hiring procedures and policies for staff evaluation. Policies detail job descriptions for each position, including reporting relationships; salary scales with increments based on professional qualification, length of employment, and performance evaluation; benefits; and resignation, termination, and grievance procedures. Personnel policies provide for incentives based on participation in professional development opportunities. The policies are provided to each employee upon hiring.

Hiring procedures include completion of the following checks: criminal-record check, free from history of substantiated child abuse or neglect check, education credentials, verification of age, completion of high school or GED, personal references and a current health assessment.

Health Assessment

The preschool program maintains current health information from documented health assessments for all paid preschool staff and for all volunteers who work more than 40 hours per month and have contact with children. A current health assessment (not more than one-year-old) is received by the program before an employee starts work or before a volunteer has contact with children. The health assessment is updated every two years. Documented health assessments include:

- Capacities and limitations that may affect job performance
- Documentation by a licensed health professional of TB skin testing using the Mantoux method and showing the employee to be free from active TB disease. For those who have a positive TB skin test and who develop a persistent cough or unexpected fever, immediate assessment by a licensed physician is required. For those who have increased risk of TB according to the Centers for Disease Control (CDC), documentation is required annually by a licensed health professional showing that the employee is free from active TB disease.

Confidential personnel files, including applications with record of experience, transcripts of education, health-assessment records, documentation of ongoing professional development, and results of performance evaluation, are kept in a locked filing cabinet in the superintendent's office.

Orientation (QPPS 6.2)

Employees must know their role and duties. New preschool teaching staff will be required to participate in an initial orientation program that introduces them to fundamental aspects of the program operation including:

- Program philosophy, mission, and goals;
- Expectations for ethical conduct;
- Individual needs of children they will be teaching or caring for;
- Accepted guidance and classroom management techniques;
- Daily activities and routines of the program;
- Program curriculum;
- Child abuse and reporting procedures;
- Program policies and procedures;
- Iowa Quality Preschool Program Standards and Criteria;
- Regulatory requirements.
- Follow-up training expands on the initial orientations. See Staff Orientation Checklist.

The employee's immediate supervisor should provide the new employee with a review of the employee's responsibilities and duties. The superintendent will explain payroll procedures, employee benefit programs and accompanying forms to the employee. Regular employees ineligible for the school district's group health plan will be given information regarding where they can obtain health care or health care insurance.

Staffing Patterns and Schedule

The preschool program is in compliance with staff regulations and certification requirements. Our program follows requirements for staffing for Iowa's Quality Preschool Program Standards of maintaining an adult/child ratio of at least 1:10 at all times. The program administrator will maintain lists of current substitutes for both the preschool teacher and the preschool teaching assistant in case of absence. If one of the teaching staff needs to temporarily leave the classroom, the person will call the elementary office to arrange for coverage in order to maintain the adult/child ratio.

Staff is provided space and time away from children during the day. Should staff work directly with children for more than four hours, staff is provided breaks of at least 15 minutes in each four-hour period. In addition, staff may request temporary relief when they are unable to perform their duties.

Staff development activities (QPPS 6.6, 10.15)

Personnel policies provide for incentives based on participation in professional development opportunities. All teaching staff continuously strengthens their leadership skills and relationships with others and work to improve the conditions of children and families within their programs, the local community, and beyond. Teaching staff are encouraged to participate in informal and formal ways in local, state, or regional public-awareness activities. They may join an early childhood group or organization, attend meetings, or share information with others both at and outside the program.

Teaching staff will be informed of professional development activities provided by Child Care Resource and Referral, the local Empowerment areas, and the Area Education Agency. Staff is expected to attend all staff trainings and meetings throughout the year. Trainings will focus on early childhood topics relevant to the program and community.

Evaluation and Professional Growth Plan (QPPS 6.5, 6.6)

All staff is evaluated at least annually by an appropriate supervisor or, in the case of the program administrator, by the superintendent. Staff also evaluate and improve their own performance based on ongoing reflections and feedback from supervisors, peers, and families. From this, they develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.

Foster Care Point of Contact

Lori Thompson, 712-336-2822, Ext. 4290
