

## **Official Annual Notice - HEARING SCREENING**

Hearing screening is conducted in our school by Prairie Lakes Area Education Agency personnel. The children to be screened annually will include all preschool, kindergarten and second grade students, as well as students new to the area served by PLAEA. Additional screenings will be done as needed for students with known hearing loss, suspected concerns, or for special education evaluations. All of the groups may not be screened at the same time of year. Following completion of the screening, you will be informed of the results.
